WINDOW INSTALLATION CERTIFICATION

Coronado Shores

PURPOSE: To ensure installation of new windows, full-height fixed window panels, and sliding glass doors at the Coronado Shores Condominium complex comply with specifications and installation details of the structural engineer of record.

AUTHORITY: City of Coronado Building Official

NOTES: 1. This Certification is required at permit final inspection.

DATA:

1. Permit: _____ Project Address: _____

2. Installation Contractor: _____ License #: _____ Class: _____

3. Structural Engineer of Record: _____

4. Window Frame Manufacturer:

- a. Full-height sliding glass windows _____
- b. Full-height fixed glass panels _____
- c. Full-height sliding glass door panels _____

5. Glazing Manufacturer: _____

6. Energy Efficiency Standards:

- a. Fenestration products are dual-glazed and have a label with a certified U-factor of 0.79 for operable panels or 0.71 for fixed panels.
- b. Fenestration products have a certified Solar Heat Gain Coefficient (SHGC) of 0.70 for operable panels or 0.73 for fixed panels.
- c. Fenestration products have been weather-stripped and all joints and penetrations are caulked and sealed per manufacturer's installation requirements.

CERTIFICATION:

I _____, as a duly authorized representative of the Contractor listed above certify that all new full-height sliding glass windows, full-height fixed glass panels, and full-height sliding glass doors panels installed at the address listed above comply with the design criteria, structural calculations and installation details of the Engineer of Record. Furthermore, I certify that all new glazing installed meets the energy efficiency standards noted above.
